# Purvarang

Volume VI

Editor-in-Chief  
Aditi Shahade

Editor-in-Chief  
Shlok Ingle

Purvarang is the official newsletter of SGGSI&T, Nanded. It is published by a team of students. In this venture, all the aspects that are present in a newsletter are covered, right from academics to extracurriculars.

Purvarang has successfully published five editions and is on it's way for more. Purvarang's aim is to deliver authentic and unbiased news to the masses, so as to keep them informed about the proceedings in the college.

## *Financial Funda with SBI!*

With the aim of providing financial help to students who deserve it, a lecture by SBI's officials was arranged in SGGGS on October 31, 2021. This lecture was arranged under the guidance of the Dean (Student Affairs), Dr. A.R. Patil. The main speaker for the session was Shri Vinay Behl, the Chief Manager (Sales) at SBI along with the guest Shri Shrinivas Raju, the Chief Manager (Education Loan) at SBI, Shri Siddharth Chandan, Manager (Multiproduct sales team) at SBI, Shri Vivek Sharma Branch Manager at SBI Vishnupuri, Nanded. The session was conducted in the presence of the Director, Dr.Y.V. Joshi and Dean (Finance), Dr. M.B Kokare. Various policies, loan facilities, and other financial policies were discussed to make the students financially literate.

## *'IDEA' lab scheme to be introduced at SGGGS:*

AICTE (All India Council for Technical Education)-IDEA (Idea Development, Evaluation & Application) Lab scheme was launched by AICTE on January 1, 2021, to establish infrastructure supporting new-age learning in its institutions. This is aimed at encouraging students for the application of Science, Technology, Engineering, and Mathematics (STEM) fundamentals on ideas- towards enhanced hands-on experience, learning-by doing, and even product visualization.

As a common facility embedded in the institution, the IDEA Lab will make engineering graduates more imaginative and creative, besides getting basic training in the 21st-century skills like - critical thinking, problem-solving, research, collaboration, communication, lifelong learning, etc.

IDEA Lab would also serve as an empowering infrastructure for faculty to delve into multidisciplinary education and research, emphasized in the National Education Policy 2020. It is envisaged that faculty would come forward proactively to utilize these Labs and strive for identifying problems/ projects/ internships in their own subjects/ disciplines and mentor the students.

The proposals for the Scheme were invited in the month of January 2021 and subjected to evaluation. The results of the same were announced on 14th June 2021, in which, SGGSI&T was chosen to be one of the institutions to be affiliated with the scheme.

Prof. S. S. Gajre is the coordinator for the same.

## *The ISRO-IIRS Outreach Program:*

MESA approached and coordinated with Mechanical Department to make our institute a nodal center for the outreach program hosted by IIRS-ISRO. This ensures that every student that applies for any of the programs will get the seat, as the nodal officer is appointed by our institute itself. Now not only will a student benefit from this individually but also the institute gains many perks from being associated with ISRO directly. Our Director appointed Asst. Prof. Nilawar from the Civil department as the nodal officer of this institute.

### *Educative Session on preparation for GATE*

The world-wide pandemic brought everything onto its knees and the education system was no exception to this. Students were missing out on numerous essential activities like lab practical's, group studies, interaction with both students and teachers to name a few. Thus, understandably students were finding it difficult to concentrate on studies, which made them even more concerned about their future.

Consequently, MESA decided to conduct a live session with someone who can very well understand the problems faced by students. They approached the current AIR - 3 in GATE ME, Munish Kumar, who was equally excited to conduct a live session with students. The session was not only about discussion for GATE and its preparation strategy, but also for the numerous common problems faced by students daily, like lack of concentration and motivation to study, time management, etc.

The platform and time were all set, we settled for, Sunday, 4th April 2021, 1PM and the platform of choice was Cisco WebEx.. More than 120 students joined the session, from first year to final year and from every branch of our college. Anyone and everyone could directly discuss with AIR-3 himself to clarify their queries. After everyone was done with their questions, Coordinator of MESA, Prof. Dilip Mehta concluded the session with a note to the students about academics and the importance of GATE.

Overall, the session was a huge success. MESA also plans to conduct even more such events and activities for the welfare of students.

## *Debate Nation organised by ChESA*

ChESA (Chemical Engineering Student Association) decided to make a strong comeback this year. To celebrate the auspicious occasion of Gandhi Jayanti, ChESA, in coordination with all the clubs of SGGs put together a new contest - The Debate Nation.

This contest closely resembled a parliamentary session where each of the participants was representative of different states of India. In this event, the State representatives worked on problems and provided solutions for the topic given - The Indian Education System (till Class 10). It was executed on Sunday, October 3rd in the afternoon.

This was a fun and fruitful way for students to brush up on their oratory and problem-solving skills. Aniket Chatterjee and Aditi Shahade, the chair and vice-chair respectively conducted two rounds - The Round of Speeches and the Drafting of the Resolution. The response for participation in the event and the enthusiasm throughout the contest was very overwhelming and all in all, it was a great success.

Later, 4 winners were declared which was more than the previously decided number as the speakers were simply too impressive. ChESA hopes to continue this contest in the following years too! The next departmental magazine wall, "ChemWorld" is expected to be revealed on January 26th where the theme will be decided by the students according to the socio-political scenario of the country.

## *New Study Abroad Chapter on Campus*

SSAC is the Official chapter of the institute for students who are interested in pursuing higher studies abroad. The mission behind SSAC is to improve the success rate of SGGsians going abroad, to maximise the potential of students to improve their chances of getting admitted by forming an environment in which students can motivate and guide each other on their Study Abroad Journeys, right from their First Year at the institute.

### *Panel Discussion*

The Club formally kicked-off on 2 July 2021 with an Alumni moderated Panel Discussion in the presence of Director, Dr. Y. V. Joshi; Dean Student Affairs, Dr. A. R. Patil, and Club Founder, Mr. Angad Singh Sena. The panel consisted of Akhilesh Shirbhate, Vivek Sardeshmukh, Vaishali Narkhede, Iman Mukherjee, Onkar Deshmukh; Rupali Bhalerao, and Soniya Ahuja who briefed the attendees on the advantages of studying abroad and the ways to make that dream come true. The panel answered the students' questions and concluded an insightful session.

## *SSAC's Resume Building Workshop :*

The Study Abroad Club (SSAC) conducted a very delightful and knowledgeable workshop with keynote speaker Mr. Tarendra Lakhankar, an esteemed Alumnus of SGGSI&T's Civil Engineering Department who pursued his Ph.D. from City University of New York and is currently a Research Scientist in New York. The workshop focused on how to build one's resume catered to the professional life they are going to be ushered into for the rest of their lives. The speaker explained the merits and demerits of a good resume, then proceeded to further explain how to make a really good impression with a quality resume, finally ending the workshop with a couple of guided resumes from the audience.

**TEAM DRISHTI IS EXCITED TO RELEASE AWAITED THEME AND TAGLINE FOR 2022'S MAGAZINE!**

**THEME - REVENIR**

**TAGLINE – IMMINENTING BACK STRONGER**

Revenir is a French word that literally translates to 'return' or 'come back'. The French language has three verbs with similar meanings that are related to the idea of returning: rentrer, retourner and revenir. However, they are used in different contexts.

Rentrer literally means to 're-enter'. It expresses the idea of returning to a point of departure (usually home).

Retourner means to 'go back' to a place we have already visited but are no longer in.

Finally, Revenir means 'come back'. We return to the same place where we are at the time of speaking; the destination is therefore the same as the point of departure.

Remembering 2021's theme of 'Aurora' where we celebrated the brilliant light of dawn that the Covid-19 vaccines brought to the pandemic, with the theme of Revenir we have resolved to come back, come back stronger from where we left. Now that most of us are vaccinated, healthy, optimistic and resilient about the future, we can reestablish ourselves in our former lifestyles but with a new found zeal to accomplish our goals.

Drishiti aspires to keep our young minds hopeful and dedicated with this tagline!

This Year Prof. S. N. Talbar will be the faculty coordinator of Team Drishiti.

# Overview of Sic Meets

## What is SIC?

The SIC, or the Student Interface Committee is a body constituting the Director, Dean (Student Activities), Professors, Club Representatives and the CRs & CAs of every class. In the meetings held by the SIC, important college-related issues are discussed and conveyed to the authorities. This endeavor was initiated in the best interest of the students. The points discussed in the SIC meetings that have been held so far are given below.

## Inaugural Meet, October 11th:

The Meeting was conducted and directed by Yogesh Tabjula. It was proposed by Dr. A.R. Kumar, Dean (Student Activities) with SIC members for the Inauguration Ceremony of the newly formed Team 2021-22. The Director explained the various feedback mechanisms of the college and emphasized the importance of negative feedback. He also stressed upon the importance of reading the college emails. Dr. R.S. Holambe, Dean (Academics) explained to the students of SIC their role as members and highlighted that communication between the students and authorities is key.

Dr. M B Kokare, the Dean (Finance) discussed the reduction in Fees for Academic Year 2021-22 according to government norms. He also shared that those who lost their parents in this pandemic, will receive full fee waiver. Prof. R P Parvekar also explained the Interpersonal Disciplinary Approach in the field of Engineering & Corporate Sector.

## Meeting 2, October 18th, 2021:

This was an urgent meeting proposed by the Institute Authorities with SIC members regarding the reopening of the institute in physical mode from November 08, 2021.

The agenda was to discuss the procedure of re-opening of the institute in physical mode, implementation of the circular passed on October 18, 2021, and answering students' queries related to the circular.

## Points discussed in SIC:

1. Presently no hostel accommodation will be provided. The decision of providing a hostel will be taken as per the directives of DTE and Govt of Maharashtra and will be communicated in due course of time.
2. Bus facilities will not be available if the no. of benefiteres is less than 50. The charges, if the need be, would be around Rs.12000 (including all the maintenance and charges and according to norms).
3. Mid-Sem Exams will be held online as briefed earlier. Regarding End-Sem Exams no decision has been made yet. College authorities will inform everyone in due time.
4. Students are not obligated to attend the college in Physical Mode, It will be their own decision. If they do indeed decide to do so, they will be expected to follow all the safety guidelines issued by the authorities.
5. Bus fees have been/will be refund to those who paid it in the previos academic year (i.e 2020-21)
6. Regarding MAHADBT updates, please check mails regularly so that you don't miss an important notification for the same.
7. Regarding clubs and being able to access their respective labs, everyone will be permitted to do so, but they have to follow all the necessary safety precautions.

## *'SGGS Icons' Published*

The alumni of SGGSIE&T have made a great name for themselves out in the world. In an effort to recognize their contribution and the hardships they've had to face along the way to achieve success, a two-part book named "SGGS Icons" was published earlier this year. It's authored by Dr. R. N. Joshi, taking the effort in approaching the alumni interviewing them, and scribing it all out for everyone to take inspiration from to be the next icons.

Constitution Day is celebrated in our country on the 26th of November every year to commemorate the adoption of the Constitution of India on the same day in 1949. It came into effect from the 26th of January 1950, which came to be celebrated as the Republic Day since that's the day when India became Dominion of India to the Republic of India.

The Constitution of India was framed by a Constituent Assembly set up under the Cabinet Mission Plan of 1946. The Assembly held its first meeting on December 9, 1946, and elected Dr. Sachhidanand Sinha, the senior-most member of the Assembly as the Provisional President.

Two days later, the Assembly elected Dr. Rajendra Prasad as its permanent Chairman. The Assembly set up 13 committees for framing the constitution including a Drafting Committee under the Chairmanship of Dr. B.R. Ambedkar.

On the basis of the reports presented by these committees, a draft was prepared by a seven-member Drafting Committee. It is the longest written constitution in the world containing 395 Articles, 22 Parts, and 12 Schedules. The Constitution of India was not typeset or printed but was handwritten and calligraphic in both English and Hindi.

It was entirely handcrafted by the artists of Shantiniketan under the guidance of Acharya Nandalal Bose, with the calligraphy texts done by Prem Behari Narain Raizada in Delhi. The original copies of the Constitution of India are kept in special helium-filled cases in the Library of the Parliament of India.
