Report on Visit to RIT Islampur

Purpose was to visit the Engineering Exploration Lab and study their curriculum and comapre with the SGGS Engineering Exploration Course.

RIT Islamputr also have introduced Engineering Exploration Course in 2018 and they have completed two semesters.

They have designed their course for 48+12 = 60 hours. 48 hours for compleeting all the modules activitiwise and 12 hours is the time given to complete project work, resolving difficulties of students and final project exhibition. *(In our case we have designed our course for 70 hours)*

Infrastructure:

1. Teaching Rooms:
 (i) Course work Laboratory and

(ii) Twinkering Lab which remains open for 24 hours for the students to work on their project.

2. Faculty: Total eight faculty Two from each of the following Departments: EXTC, Mechanical, CSE, Civil

3. Supporting Staff: Two skilled and two unskilled
