ABOUT SGGSI&T

Shri Guru Gobind Singhji Institute of Engineering and Technology, Vishnupuri, Nanded was established on 17th December 1981. The Institute has autonomous status and is cent percent aided by the Government of Maharashtra. Honorable Shri Rajesh Pawar an eminent visionary industrialist is Chairman of BOG of the institute.

The Board of Management consists of eminent industrialists, academicians and senior administrators from the Government. The Institute offers 10 undergraduate and 10 postgraduate programs. It also offers Ph.D. program under Swami Ramanand Teerth Marathwada University, Nanded and is also selected as research center for faculty under QIP of Ministry of HRD, Government of India, New Delhi.

ABOUT DEPARTMENT

The Department of Chemical Engineering is one of the growing departments of institute. The B. Tech (Chemical Engineering) course was started in the academic year 2009-10 with an intake of 30. Focus of Chemical Engineering Department is towards undergraduate teaching as well as fundamental and applied research in the variety of areas of current interest. Internet and laboratory facilities are provided to the students. Our departmental magazine helps in bringing the latent potential of our students to the forth and highlights research activities. The department functions for an all round progress of Chemical Engineering students and thus helping the industry and nation as a whole for its growth and

development. It operates mainly through three steps academics, research, and extension activity.

ABOUT THE COURSE

Advanced functional materials continue to attract huge scientific interest by feature of its potential to provide path breaking innovations. The exchange of knowledge and information in this field is thus very important for researchers, academicians and entrepreneurs to develop new materials and technologies for future applications. The course aims to bring together national experts from R&D organizations, academic institutions, and industries in the field of materials science and endeavors to facilitate interactions and discussions on the recent trends in functional material area.

KEY FEATURES OF COURSE

- Functional materials: general concepts, processing technologies, applications, and future trends.
- Functional materials: Synthesis and characterization.
- Functional materials- Physics, Chemistry and Biology
- Hybrid functional materials.
- Functional materials for energy and environment.
- Functional materials in Nanotechnology.
- Functional polymeric composite materials.
- Functional materials in drug delivery.
- Functional materials based devices.
- Functional material based technology, innovation and market.

ELIGIBILITY

Faculty members of degree level engineering colleges & polytechnics recognized by AICTE, working in any area of Science or Engineering are eligible to attend this course.

TRANSPORT, BOARDING & LODGING

Participants are entitled for bus / second class (Sleeper class) / III AC railway fare to and fro by the shortest route from Participant's institute to SGGSI&T, Vishnupuri, Nanded.
