Prajakta T (TY)

Rank – 1ST

Quiz competition was very good. There were easy, moderate and some hard questions as well. Questions were based on English grammar and aptitude and time given was 45 min, so it was somewhat challenging to solve all questions in given time as the difficulty was mixed but while solving, it felt very competitive. It was very well organized, and I would like to participate in such quizzes more in future as it really helps, so I would suggest keep conducting such quizzes often.

As we all know, we all are facing difficult situations in this COVID-19 pandemic. Despite of this, this quiz was conducted online. It was very nice of the team to conduct such activities. I appreciate all the efforts taken by them. Also, this quiz was not the entertainment type. It consisted of really tough aptitude and comprehension questions. Their level was very standard like competitive exams. So it seems like the team created them very carefully. It gave me fun solving them. As the quiz was conducted online and on holidays, the timing didn't get clashed with our academics. Overall, the quiz was good and tough. It gave challenge to my brain. Thank you....
